POSITION TITLE: Mechanical Technician

LOCATION: 1/18 Renewable Chase Bibra Lake, WA 6163

STATUS: Permanent Full Time

Summary for Seek

Use your mechanical knowledge to diagnose, service and maintain Australian designed and engineered submersible pumping equipment.

- Use your mechanical knowledge and skills and become a specialist in pumps.
- Potential to grow and diversify your career as we continue to grow.
- 2nd year and 3rd year Apprentices welcome to apply

About Us

We are an Australian owned and operated specialist manufacturer and supplier of our own designed and patented submersible pumps to the underground and surface mining sector, as well as other industries that require dirty water management solutions. We have a great industry reputation, a growing global footprint and enjoy continued growth.

Our equipment is designed and engineered for the unique and demanding submersible pumping conditions found in Australia and across the world. Our focus is submersible pumps and technology, and we utilise our own manufacturing capability and specialist alliances to provide some the best equipment in the market. We have offices in Perth and Kalgoorlie in WA and in Townsville, Qld.

The job

A mechanically minded and experienced technician is required to learn about our range of pumping and mechanical equipment. You will predominantly work out of our well stocked and tooled workshop with a small and dedicated team of people however there may be the occasional need to do onsite repairs.

You will be provided inhouse training on our range of equipment so that you are able to dismantle, diagnose, repair, rebuild and test across our product range. On occasion you will need to liaise with our clients as a subject matter expert.

Your passion and experience in all things mechanical are essential. Your job will require you to:

- Undertake servicing and repairs across our range of products.
- Maintain our hire equipment to the highest standard of operability.
- Provide guidance and advice to our design engineers when you see opportunity for improvement.
- Be safety conscious.

We are also hiring for the same position in Kalgoorlie and may provide financial relocation assistance to the right person.

About you

We want you to have a natural interest and demonstrable hand-on mechanical skills, irrespective of how you have acquired them. We'll provide you with training and on the job experience that will make you an expert. A positive attitude and great work ethic are essential

We are open minded and will consider people that have worked across any mechanical environment such as:

- Engineering and maintenance.
- Trades assistant.
- Fitter, turner or machinist.
- Equipment assembler.
- Service technician.
- 2nd or 3rd year apprentice.

Certifications will be advantageous but are not essential if you have adequate experience.

You will require good verbal and written communication skills, be computer literate, have a positive outlook, and know that 'anything is achievable'.

This is a great opportunity to join our business which has a great team culture and is built on a solid foundation of success and growth.

We are passionate about our business, our people and value the contribution everyone makes. We put safety, diversity, the team, and client satisfaction above all else.

PumpEng is an equal opportunity employer and we look forward to reviewing your CV and Cover Letter. If Kalgoorlie interests you, please let us know in your cover letter.
